

3form[®] SUSTAINABILITY

TODAY, 3form is working hard to eliminate landfill waste and reduce emissions of greenhouse gasses. We strive to make better products using fewer natural resources. Today, 3form is doing what we can for tomorrow.

SUSTAINABLE PRODUCTS

VARIA™

3form Varia is made from ecoresin – a translucent, durable, non-toxic resin made with 40% recycled content. It is also certified for indoor air quality by Greenguard, the world's leading guide to third-party certified low-emitting interior products and building materials.

100 PERCENT™

3form 100 PERCENT represents a new milestone in environmental design. Made entirely from post-consumer recycled HDPE, 100 PERCENT is waste transformed into high designed and engineered panels. At the end of its useful life, it can be recycled yet again through 3form's reclaim program.

CHROMA™

Chroma is product platform which utilizes an innovative new coloring technology which allows sheets to be completely reprocessed at end-of-life. At end-of-life, sheets are returned via the 3form Reclaim Program and the color is completely removed so the sheets can be re-manufactured into any new color. Chroma is available with a lease option, which includes an eco-deposit.

RECLAIM™

3form takes responsibility for its products over the entire life cycle as demonstrated by its Reclaim program. Through this program 3form pays for used panels to be shipped back to the manufacturing facility to be reused or recycled, thus keeping materials out of the landfill.

PATH TO ZERO

Waste – We have committed to eliminating all landfill waste by April of 2009.

Emissions – We will reduce our carbon dioxide emissions by 90% over the next 10 years (by 2017)

Products – We will increase the overall percentage of recycled content in our materials to 90% over the next 10 years (by 2017)

FULL CIRCLE: OUR COMMITMENT

Full Circle is the standard by which we design; its objective is to create products that make a positive social impact on the world. At 3form WE ARE PROUD Of “how” we do business, with our commitment to sourcing materials in a meaningful way and providing a sustainable living to artisans in diverse communities. Our Full Circle products bring affirmation to the Earth, to our societal partners, and we hope, in “full circle” to you.
